# LOCAL WHOLESALE TRADE

RETAIL MERCHANTS BUY LIBERAL-LY ON COMMISSION ROW.

Groceries Firm with a Fairly Active Demand-Disappointing Arrivals of Wheat and Corn.

Trade on Commission row was active, as is usual on Friday. Retail grocers stocked up liberally with fruits and vegetables, not only the Indianapolis merchants, but those in the territory which draws its supplies from this market. Market men glso were liberal buyers. It is said the twenty-three commission houses have done the largest business of any July in their itstory. Fruits and vegetables were in good supply most of the month and during the latter part were of superior quality and sold liberally, so that good prices were obtainable. Irish potatoes are in good supply and sell at low prices for so early in the season. The produce merchants had a busy month. Changes in values were slight. Poultry through the entire month has ruled at higher figures than ever before in July, and eggs are high owing to the fact that many were spoiled by the extreme had been spoiled by the extreme had b were spoiled by the extreme hot weather at different periods of the month. Choice butter is still in good request, but a large percentage of the arrivals are of inferior grade and sell slowly. Cheese is firmer but not in large demand. The wholesale grocers had one of the best months in their history. Sugara and coffees and all other lines of groceries have ruled steady in price and have been fast movers, and though profits on any one article are small, in the aggregate they foot up favorably. The iron and steel market is firm and sales are large for mid-summer. Hog products have moved freely at reduced prices. The month closes with a healthy tone and wholsale merchants, as well as retail dealers, are well

satisfied with conditions. Indianapolis Grain Market. Offerings are only fair. Receipts of wheat and corn have not reached expectations for over a week. Track bids, as reported by the secretary of the Board of Trade yester-

RICHMOND, Va., July 31 .- One of the largest suits ever brought here has been instituted in the city Circuit Court by George Stone, administrator of Bernard P. the wagon market. Prices carried an easier | Green and Frank D. Wynn, administrator of John Parker, against the State of Virginia. As administrators they claim \$172,000 in for services in negotiating the final settlement of claims of the State against the United States on account of advances during the war of 1812 against great Britain. This settlement was effected quite recently when the State and the United States balanced accounts, the federal govern-ment forwarding a check for \$5.50 as balance due Virginia.

The proposed issue is a puzzle to Wall street in view of the present condition of the securities market. Money conditions retained yesterday's relaxation and preliminary figures indicate a cash gain by the banks for the week of nearly \$7,000,000. The repayment of the Pennsylvania loans has been expected to show in to-morrow's bank stantement, but the purchase of the Evansville & Terre Haute and payments of \$5,000,000 on the final installment on the International Mercantile Marine underwriting and of \$3,500,derwriting may complicate the loan item of the banks. CATTLE IN LARGE SUPPLY AND TEN TO FIFTEEN CENTS LOWER.

Hogs in Fair Demand and a Trifle Lower - Sheep Fully Steady - Condition of Markets Elsewhere.

UNION STOCKYARDS, INDIANAPOLIS, July 31.-Cattle-Receipts, 1,500; shipments, 500. On ceipts of cattle continue surprisingly large and records are being broken. It is evident also that shippers have not given as much attention to making their selections as usual, and the quality this week, on account of the considerably larger proportions of common to medium stock, is below the average of last week. Buyers have been more particular in making selections, and, having neglected the common to medium stock, such kinds have been accumulating all week and to-day the yards are full of undesirable cattle. The market opened with no important demand from any source, and in fact buyers are rarely more indifferent or unconcerned. They did not seem to want any particular kind, but naturally were inquiring for the best selections first. They were finally persuaded to take the cattle that were up to the requirements in every particular at about steady prices, but there was no established market for common to good kinds, and it was more a question of finding an outlet than of arranging terms. Therefore, aside from the few sales of prime stock, the market was as dull as could be imagined, and sales were so irregular that it would be difficult to give an accurate report of the conditions existing. It was gen erally admitted, however, that all except strictly prime cattle sold lower than yesterday, and common to medium were reported from 400 to 500 lower than a week ago. There was a fair demand for feeding cattle at about steady prices. but the outlet was not sufficient to exhaust the supply. Quotations:

any different a little better than the standard the past few days. All grades were very well represented, but as usual for some time past the average was heavy. The market opened with no really important demand from outside sources. and sellers were a little fearful of the outlook, but early in the day packers showed a disposi-tion to be liberal buyers at a little lower prices, and a trading basis was established without a great deal of trouble. In most cases sales repre-sented a decline of at least of in prices compared with yesterday's average, and occasionally transwith yesterday's average, and occasionally trans-actions were probably loc lower than some of the high sales at the close yesterday, but the best light hogs, which are very scarce, sold nearly steady in a few instances. Packers were free buyers, and with a liberal demand from shippers it did not require long to exhaust the early supply of 7,000 hogs. There were very few late arrivals, in fact not enough to affect the market in any way, and the close therefore was steady at the decline. Sales ranged from \$5.50 to \$5.75, and the bulk of the supply sold at \$5.50 @5.65. Quotations: Good to choice medium to heavy ...... Mixed and heavy packing..... Good to choice light weights. Not-withstanding the receipts of sheep and lambs were larger, the market opened with rather a good demand and the conditions were rather encouraging to salesmen. Early in the day good competition developed between local butchers and shippers, and, with the quality as good as it has been any time recently, buyers seemed rather anxious to execute their orders, and the trading was active. Occasional sales appeared some better than yesterday, but the advance was probably due more to the quality than to any improvement in the market. In a general way sales were reported steady, and a good clearance was made on that basis. There were a few bunches of lambs at \$5.50, and quite a number at \$5.25@5.40. Common to medium lambs brought \$3.50@5, yearling sheep sold as high as 34 and a few old sheep as high as \$3.75. The top price, however, was virtually \$3.50, and other sales were at \$2.50@3.25. ## GRAINS DEPRESSED

BREAK IN JULY OATS CORNER OF LITTLE GENERAL EFFECT.

Fractions Clipped from All Cereal Prices-Provisions Are Weak and Show Considerable Losses.

CHICAGO, July 31.-Weakness was manifested in both the grain and provision pits to-day, September wheat closing %c lower, corn and oats each off 1/2c and provisions from 15c to 35c lower.

Trading in wheat was only moderate and the market on the whole was inclined to weakness, with prices erratic. The early morning news was of a rather doubtful character and opening prices were about steady, September being a shade to 1/401/4c higher at 79%c to 79%c. There was considerable selling pressure at the start, due Louis were larger than a year ago and partly that a majority of traders were on the long side, with many willing to take profits. After ruling weak for a time the market firmed up on renewed reports of damage in the Northwest, but further liquidation soon carried prices off again. The session was marked by these advances, with subsequent declines, until the last half hour, when heavy realizing carried prices to the bottom, September selling down to 781/2c. The close was at 781/20781/8c, a net loss of %c for the day. Clearances of wheat and flour were equal to 529,700 bu. Primary receipts were 575,600 bu, against 1.075,865 bu a year ago. Minneapolis and Duluth reported receipts of 123 cars, which, with local receipts of 64 cars-26 of contract grade-made a total of 187 cars, against 176 last week and 511 a year ago. More rains in the corn belt caused weakness in that grain, and although there was fair suport at times from local traders and commission houses the market failed to respond to any great extent to this demand. The break in wheat also had a depressing influence. Taken as a whole, the market was not a very big affair. The close was weak, with September off 1/2c at 521/4c, after selling between 521/4c and 521/46527/4c. Receipts were 161 cars, 18 of contract grade. Oats for July delivery failed to produce any excitement in the pit. "From the standpoint of the total coal consumption of the country, the worst month of the year is now ended, and demand will steadily increase until the maximum is reached in December and January. In the soft coal trade some evidence to this effect is found in the position of the mar-kets at the end of July. Cheese unchanged. month, due to an increased demand from all consuming trade, including the large steam users as well as the dealers. A per-ceptibly better feeling has been noted the past week and in the West prices rule nearer to the circular basis than they have at any time since the opening of the new mining year, while the dealer trade, which is the coming factor in the situation, is doing less complaining than it did a few weeks Anthracite demand from sh continues active; from retailers to consumers it is comparatively light, although there is evidence that it will improve during the coming months. Retailers report a better condition as to inquiries than they did a fortnight ago, and they take this to mean that consumers will look after their

prospective wants more closely in the im-"With to-morrow the August prices will go into effect in all anthracite territory, a nounting to an advance of 10 cents a ton over the prices prevailing the present month. The new August net price list is as

follows: Buffalo and the F. o. b. vessels bridges f. o. b. cars Buffalo, N. Y., for shipment West, gross gross tons. Egg ...... 5.40 Stove ..... 5.10 Chestnut ..... 5.40

"Pressure to obtain shipments of anthracite has been somewhat greater the present week. Dealers who had not yet received coal ordered earlier in the month have been insistent that deliveries should be made before the August prices became effective. In some instances it is reported that dealers sold coal on the opening basis named in April and have not yet received a tonnage which will permit them to take care of this which will permit them to take care of this business. Every time that an advance occurs in the wholesale price they lose that much out of their profits, and it is, therefore, quite natural that they should make every effort to prevent the loss from increasing."
